

Reinigung und Desinfektion
Die Visalys [®] Tooth Primer Flasche kann durch Wischdesinfektion mit nicht-oxidierender Desinfektionsmittellösung gereinigt werden.
Desinfektion der Flasche gemäß den nationalen Leitlinien.
Praxistaugliche Hygienemaßnahmen beachten.
Legungsbedingungen
Trocken, vor Sonneneinstrahlung aufbewahren. Bis zur ersten Verwendung muss das Produkt im Kühlschrank bei 2°C/36°F–8°C/46°F gelagert werden.
Anwendungsgebiete
Zahnharzsubstanz-Primer zur definitiven Befestigung von: <ul style="list-style-type: none">Kronen, Brücken, Inlays, Onlays, Veneers und Adhäsivbrücken in Kombination mit Visalys[®] Core. Wurzelschlitzen in Kombination mit Visalys[®] Core und Visalys[®] Core Indirekten Stumpfaufbauten in Kombination mit Visalys[®] Core
Zahnharzsubstanz-Primer zum Aufbau eines adhäsiven Verbunds mit Visalys [®] Core und Visalys [®] Core zur Erhaltung von:
• adhäsiven Stumpfaufbauten
Patientenzulassung
Patienten, die im Rahmen einer zahnärztlichen Maßnahme behandelt werden.
Kontraindikationen
Bei bekannter Allergie gegen Methacrylsäureester, 4-Methoxyphenol oder andere Inhaltsstoffe von Visalys [®] Tooth Primer.
Nicht bei ausreichenden Möglichkeiten einer sicheren Trocknungslage.
Warnhinweise
Bei empfindlichen Personen können allergische Reaktionen auf das Produkt nicht ausgeschlossen werden. Sensibilisierung durch Haut-/Schleimhautkontakt ist möglich. Die Verwendung von Wasserstoffperoxyd-Lösungen, essenzhaltigen Materialien oder anderen oxidierenden Retraktionsmitteln kann die Haftung beeinträchtigen. Bei vitalen Zähnen sind pulpanische Anzeigefg. mit einem geeigneten Pulpa- /Dentin-Schutz zu versorgen.
Für Kinder unzulänglich aufbewahren.
Vorsichtsmaßnahmen
Nicht nach Ablauf des Verwendbarkeitsdatums anwenden.
Dieses Material nicht verschlucken. Nach versehentlichem Verschlucken: Bei aufbreienden oder anhaltenden Beschwerden wenden Sie sich an einen Arzt. Geeignete Schutzmaßnahmen (z. B. Tragen von Handschuhen oder einer Schutzbrille) ergreifen. Haut- und Schleimhautkontakt mit dem Material vermeiden.
Augenkontakt vermeiden. Bei versehentlichem Augenkontakt: Sofort gründliches Ausspülen mit Augentropfen oder Wasser. Bei aufbreienden oder anhaltenden Beschwerden wenden Sie sich an einen Arzt.
Kontakt mit Kleinfingerringen vermeiden, da eine bläuliche Schädigung der Kleidung nicht ausgeschlossen werden kann.
Sicherheitsdatenblätter finden Sie auch unter www.kettenbach.de .
Allgemeine Hinweise
Bei einer Kühlschranklagerung muss das Produkt vor der Verwendung Raumtemperatur erreicht haben.
Der Visalys [®] Tooth Primer ist ausschließlich zur Vorbehandlung der natürlichen Zahnharzsubstanz und nicht für die Oberflächenbehandlung von prothetischen Restaurationen, die Oberflächenbehandlung von indirekten Stumpfaufbauten (mit indirekten Materialien als Visalys [®] Core und Visalys [®] Core) und die Oberflächenbehandlung von Implantat-Abutments vorgesehen.
Den Visalys [®] Tooth Primer nur in Verbindung mit Visalys [®] Core und Visalys [®] Core verwenden.
Anwendung als Zahnharzsubstanz-Primer zur Befestigung mit Visalys[®] Core
Der Visalys [®] Tooth Primer ist ein selbststärkender Primer und kann daher ohne zusätzliche Phosphorsäure-Ätzung angewendet werden. Nur bei der Befestigung von Visalys [®] Core und/oder Visalys [®] Core auf nicht beschleunigten Schmelz ist eine selektive Phosphorsäure-Ätzung des Schmelzes notwendig. Abhängig von dem klinischen Verhältnis kann wahrheits zu auch in anderen Fällen eine selektive Ätzung durchgeführt werden. Das Ätzgel entsprechend der Gebrauchsinformation des jeweiligen Restmaterials zu verwenden.
1. Nach der Eingrube der Restauration müssen Speichel, Blut und ggf. Reste der Visalys [®] Core und/oder Visalys [®] Core von den Hartteilen der Zahnharzsubstanz mit Wassergrün entfernt und die Oberflächen anschließend trocken gehalten werden. Die Hartflächen müssen frei von Verunreinigungen sein. Es empfiehlt sich eine Trocknungslage mit Kofferdam.
2. Visalys [®] Tooth Primer in eine Vorlageschale tropfen. Ein Lichtschutz ist nicht notwendig. Primer Flaschen nach jedem Gebrauch sorgfältig verschließen.
3. Visalys [®] Tooth Primer mit einem geeigneten Applikator auf die gesamte Haftfläche der Zahnharzfläche auftragen und 20 Sek. einmassieren. Nach Auftragen des Tooth Primers direkt mit der weiteren Bearbeitung beginnen. Mögliche Überschüsse können mit Wattebäuschchen entfernt und mit Luft verbunden werden. Anschließend mit einem sauberen, feinen Luftstrom trocknen. Der vorgelegte Primer sollte innerhalb von 5 Min. verarbeitet werden, da Inhaltstoffe verdrösten können.
Cautions
Do not use after the expiration date.
If the material is inadvertently swallowed, consult a medical doctor if problems arise or persist.
Take the appropriate protective measures (e.g. wear gloves or safety glasses). Avoid contact with skin and mucous tissue with the material.
Avoid contact with the eyes. If there is accidental contact with the eyes, rinse immediately and thoroughly with an eye wash or water. Consult a medical doctor if problems arise or persist.
Avoid contact with clothing, as permanent damage to clothes cannot be excluded.
Safety data sheets are available at www.kettenbach.com .
General Notes
Use refrigerator storage, the product has to have reached room temperature prior to use.
Do not swallow the material. In case of ingestion accidentally do not attempt to vomit. In case of severe or persistent symptoms, consult a medical doctor.

The emergence profiles and screw channels, as applicable, must be prepared by suitable means (e.g. wax, silicone covers).

Cementation of root posts (Visalys[®] CemCore and Visalys[®] Core) and indirect core build-ups (Visalys[®] CemCore)

- Prepare the root canal, root post or indirect core build-up according to the instructions for use from the relevant manufacturer.
- Wet the cleaned and dried surfaces of the root canal, the coronal dentin and the enamel parts, as applicable, completely with Visalys[®] Tooth Primer and rub in for 20 sec. Remove excess from the root canal with a paper tip and dry all surfaces with a gentle jet of air.
- Apply Visalys[®] CemCore or Visalys[®] Core according to the instructions for use of the product and cement the root post or indirect core build-up (only Visalys[®] Core) with the respective adhesive. Do not light cure Visalys[®] CemCore.
- Perform the build-up of the core as described under "Instructions for use for core build-up" from the Visalys[®] CemCore or Visalys[®] Core instructions for use.

Application Instructions as Dental Hard Substance Primer for Core Build-Up

- Clean and dry the cavity.
- Ensure close to the pulp must be protected with the appropriate means.
- Apply a clean and dry operating field (rubber dam) during the entire application.
- Selective phosphoric acid etching of the enamel may be undertaken optionally.
- Drop Visalys[®] Tooth Primer into a preparation tray. Light protection is the primary concern.
- Apply Visalys[®] Tooth Primer to the entire adhesive surface of the core or the cavity using a suitable applicator and rub in for 20 sec. Any excess can be removed with a cotton pellet and blown with air. Then dry with a jet of air. The preparation should be processed within 5 min., as constituents can evaporate.
- Perform the build-up of the core as described under "Instructions for use for core build-up" from the Visalys[®] CemCore instructions for use or the Visalys[®] Core instructions for use.

Warenzeichen

Visalys[®] Tooth Primer, Visalys[®] CemCore Try In Paste, Visalys[®] CemCore und Visalys[®] Core sind registrierte Warenzeichen der Kettenbach GmbH & Co. KG.

Hinweis

Nicht alle Kettenbach-Produkte sind in allen Ländern erhältlich.

Nur für den Gebrauch durch dentale Fachpersonal.

Bei auftretenden schwerwiegenden Vorfällen, die im Zusammenhang mit dem Produkt stehen, wenden Sie sich bitte unverzüglich an den Hersteller und an die zuständige Behörde.

Haftungsbeschränkung

Soweit ein Haftungsausschluss gesetzlich zulässig ist, übernimmt die Kettenbach GmbH & Co. KG keinerlei Haftung für Verluste oder Schäden durch dieses Produkt, einschließlich aber sich dabei um direkte, indirekte, besondere, Begehr- oder Folgeschäden unabhängig von der Rechtsgrundlage, einschließlich Garantie, Vertrag, Fahrlässigkeit oder Vorsatz, handelt.

Die Angaben über Kettenbach-Produkte beruhen auf umfangreicher Forschung und angewandter technischer Erfahrung. Wir vermitteln diese Ergebnisse nach bestem Wissen, behalten uns aber technische Änderungen zur Produktentwicklung vor. Die Entität, den Benutzer der Produkte jedoch nicht davon, die Empfehlungen und Anweisungen auf Gebrauch zu beachten.

Stand der Information: 10. November 2023

ENGLISH
<p>Constituents</p> <p>The main components of the Visalys[®] Tooth Primer are water, acidic monomer (10-MDP) and HEMA.</p> <p>Trademarks</p> <p>Visalys[®] Tooth Primer, Visalys[®] Core Try In Paste, Visalys[®] Core and Visalys[®] Core are registered trademarks of Kettenbach GmbH & Co. KG.</p> <p>Note</p> <p>Not all Kettenbach products are available in all countries.</p> <p>For dental professional use only. Caution: Federal (U.S.A.)
